1. Component Diagram:

<https://tinyurl.com/yeyrw7mn>

Above is the shortened URL for Component Diagram

This component diagram explains how different parts of the Airport Operations Management System work together. It shows the connection between modules such as flight management, passenger check-in, baggage tracking, security, and notification services to support smooth airport operations.

2. Deployment Diagram

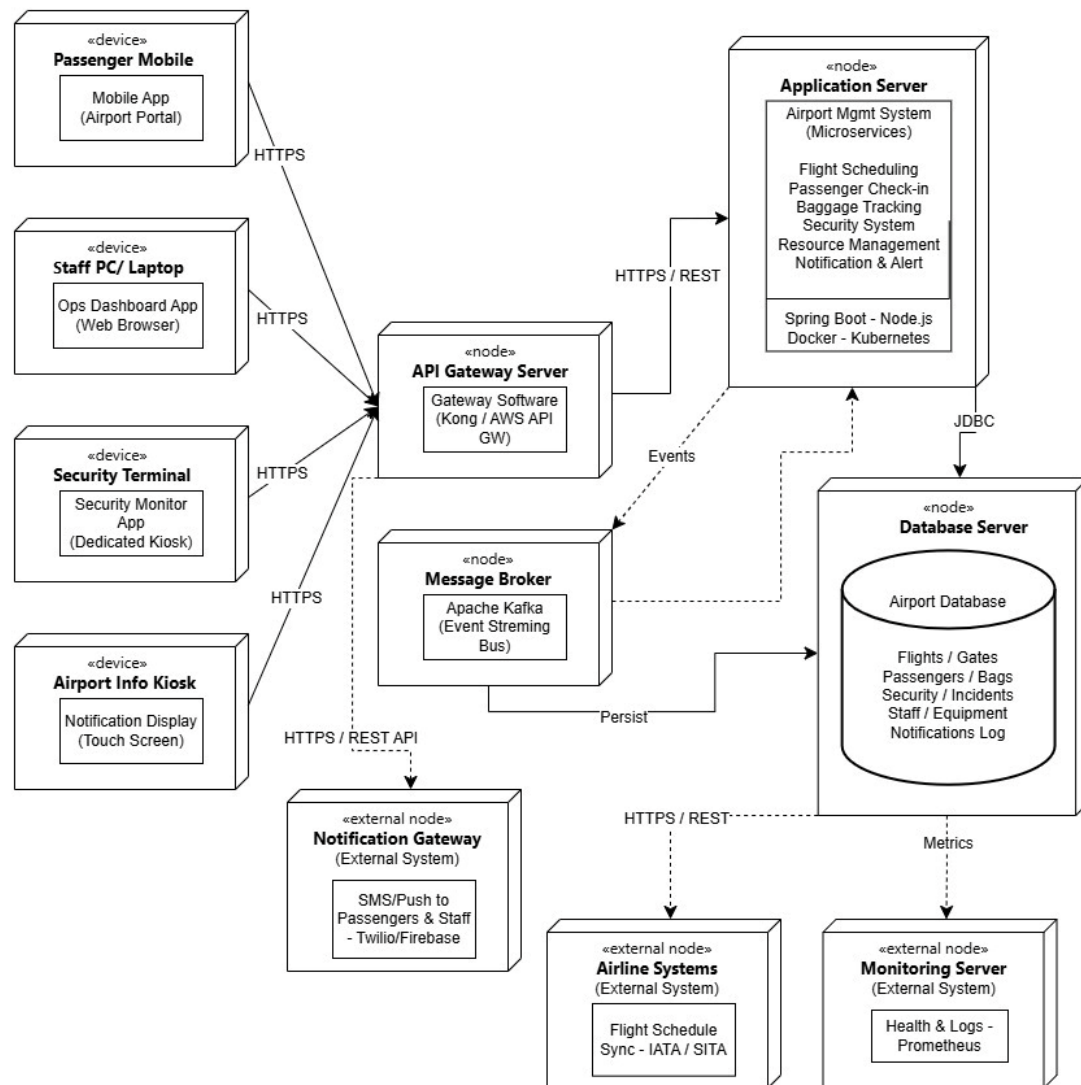

<https://tinyurl.com/5c4tbb3c>

Above is the shortened URL for Deployment Diagram

This diagram shows the deployment structure of the Airport Operations Management System. Different airport devices connect securely to the application server through an API Gateway. The system uses microservices, databases, and external services to manage real-time airport operations efficiently.

3. Use-Case Diagram

<https://tinyurl.com/4duks9nb>

Above is the shortened URL for Use-Case Diagram

This case diagram shows the main functions of the Airport Operations Management System. It explains how administrators, airline staff, security staff, and passengers interact with the system for flight management, check-in, baggage handling, security, and boarding processes.
